

RITMO

Design : Tomoya Tabuchi / IXC.R&D
2009 NEW MODEL

「RITMO」table has sophisticated and elegant atmosphere in its form. The table is suitable for any situation, not only meeting table for office area, but also dining table for residential area. By adopting a new method of making process, the edge of the top realized its smooth and beautiful curving line. Also it is very easy to be assembled and knocked down due to simple structure.
